

Thick Top

Thick Top

Design Simone Viola

Materials Eco plastic, polypropylene

A name that is almost an onomatopoeic sound, a shape designed for the interior and the exterior alike, in two different heights that make it a versatile and flexible object. The two heights are suitable for different uses, as a table or even as a valet stand, to be placed freely around the house, in the garden, in public spaces, or in restaurants. The slight grooves and the proportions of the top almost resemble a tray in size and maneuverability. Although the name refers to the considerable thickness of the top, the object sports at the same time unexpectedly lightweight and easy of handling, thanks to clever use of

materials. The gently sketched-out base is a testament to TOOU's renewed commitment to pay greater attention to the environment since it is made of eco plastic, a compound of recycled organic waste materials with an extremely low environmental impact. The sober, refined colours of both the top and the thin closing base match perfectly with the vibrant textures of the eco plastic body. We consider Thick Top as a first, important step towards an increasingly eco-conscious design with the lightest possible impact on Earth.

Thick Top

Low side table TO-1830/TO-1833	Indoor and outdoor use Not stackable
--	---

Dimensions (cm) Ø48 H35	Weight (kgs) 4.2
-----------------------------------	----------------------------

Material
Structure in eco plastic. Top and cap in polypropylene.

High side table TO-1830/TO-1835	Indoor and outdoor use Not stackable
---	---

Dimensions (cm) Ø48 H50	Weight (kgs) 5.2
-----------------------------------	----------------------------

Material
Structure in eco plastic. Top and cap in polypropylene.
